

Social Security Administration

§ 404.1536

if this treatment can restore your ability to work.

(b) *When you do not follow prescribed treatment.* If you do not follow the prescribed treatment without a good reason, we will not find you disabled or, if you are already receiving benefits, we will stop paying you benefits.

(c) *Acceptable reasons for failure to follow prescribed treatment.* We will consider your physical, mental, educational, and linguistic limitations (including any lack of facility with the English language) when determining if you have an acceptable reason for failure to follow prescribed treatment. The following are examples of a good reason for not following treatment:

(1) The specific medical treatment is contrary to the established teaching and tenets of your religion.

(2) The prescribed treatment would be cataract surgery for one eye, when there is an impairment of the other eye resulting in a severe loss of vision and is not subject to improvement through treatment.

(3) Surgery was previously performed with unsuccessful results and the same surgery is again being recommended for the same impairment.

(4) The treatment because of its magnitude (e.g., open heart surgery), unusual nature (e.g., organ transplant), or other reason is very risky for you; or

(5) The treatment involves amputation of an extremity, or a major part of an extremity.

[45 FR 55584, Aug. 20, 1980, as amended at 59 FR 1635, Jan. 12, 1994]

§ 404.1535 How we will determine whether your drug addiction or alcoholism is a contributing factor material to the determination of disability.

(a) *General.* If we find that you are disabled and have medical evidence of your drug addiction or alcoholism, we must determine whether your drug addiction or alcoholism is a contributing factor material to the determination of disability.

(b) *Process we will follow when we have medical evidence of your drug addiction or alcoholism.* (1) The key factor we will examine in determining whether drug addiction or alcoholism is a contributing factor material to the determina-

tion of disability is whether we would still find you disabled if you stopped using drugs or alcohol.

(2) In making this determination, we will evaluate which of your current physical and mental limitations, upon which we based our current disability determination, would remain if you stopped using drugs or alcohol and then determine whether any or all of your remaining limitations would be disabling.

(i) If we determine that your remaining limitations would not be disabling, we will find that your drug addiction or alcoholism is a contributing factor material to the determination of disability.

(ii) If we determine that your remaining limitations are disabling, you are disabled independent of your drug addiction or alcoholism and we will find that your drug addiction or alcoholism is not a contributing factor material to the determination of disability.

[60 FR 8147, Feb. 10, 1995]

§ 404.1536 Treatment required for individuals whose drug addiction or alcoholism is a contributing factor material to the determination of disability.

(a) If we determine that you are disabled and drug addiction or alcoholism is a contributing factor material to the determination of disability (as described in § 404.1535), you must avail yourself of appropriate treatment for your drug addiction or alcoholism at an institution or facility approved by us when this treatment is available and make progress in your treatment. Generally, you are not expected to pay for this treatment. You will not be paid benefits for any month after the month we have notified you in writing that—

(1) You did not comply with the terms, conditions and requirements of the treatment which has been made available to you; or

(2) You did not avail yourself of the treatment after you had been notified that it is available to you.
